MICHAUD
HABITAT ET RÉSEAU ÉLECTRIQUE

Michaud at a Glance

- Scope : Low Voltage Distribution
- Core : Insulated Piercing Technology,
- Overhead Network Connectors,
- Underground Service Boxes,
- Protection, Fuses, Metering,
- Distribution Cabinets,
- Distribution Enclosures for multi floors buildings

- SMB, 58 M€ consolidated,
- 200 hc, 40 years experience,
- AURA Region:
 - Head Quarter, R&D,
 - Manufacturing sites,
- Sales Areas:
 - France,
 - International foot print,
- Markets and Channels :
 - DSO (National & Locals)
 - Specialized Distributors,
- Values:
 - Quality, Reliability,
 - Responsiveness.

Charging Infrastructure – Market Needs

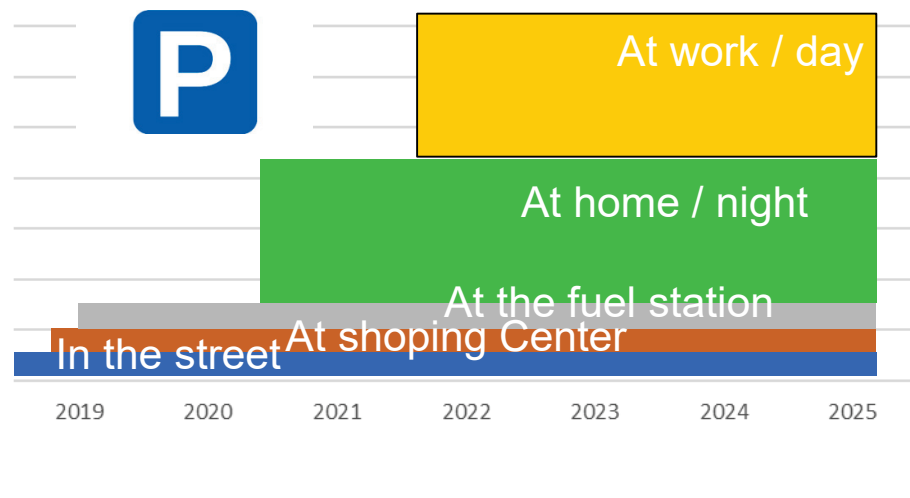

PARK'ELEC – The missing link from DSO network to your charging point

Number of Electric Vehicles

Number of Charging Points

- Trend is agreed,
- Various scenarios about speed of deployment,
- Where to charge my EV ?
- A big share is about collective parking lots

michaud.fr / Daniel Pothier / Marketing Director / dpothier@michaud.fr

Solution for Collective Parking Lots

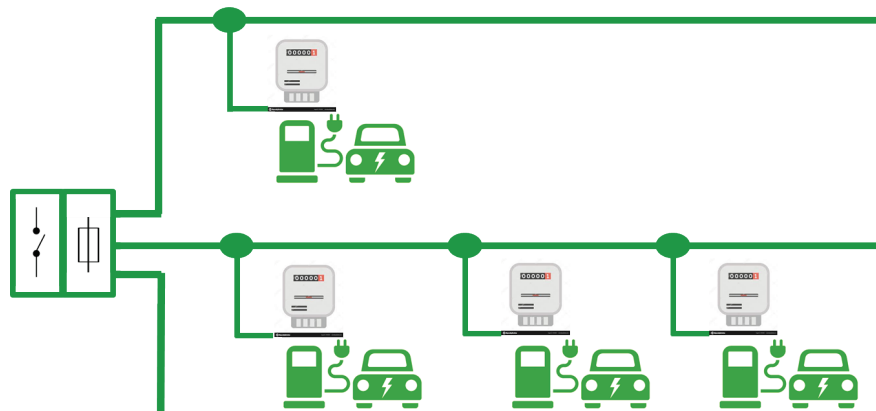

PARK'ELEC – The missing link from DSO network to your charging point

Mobilité électrique
Gamme **PARK'ELEC**

- Combine existing, **cost effective** technologies (*Piercing Connectors & Distribution enclosures*),
- **Easy** : either Upstream the meter (*expanding the DSO network*),
- Or Downstream the meter (*deploying a private network*),
- **Upgradable**: from few charging points, to many.
